THE EMERALD TABLETS OF THOTH THE ATLANTEAN BY DR. M. DOREAL

When the time came for Thoth to leave Egypt, he erected the Great Pyramid over the entrance to the Great Halls of Amenti, placed in it his records and certain mechanical devices. He then appointed from among the highest of his people guards to protect his mighty secrets. In later times; the descendants of these guards became the Pyramid Priests while Thoth was deified as the God of Wisdom, the Recorder, by those in the age of darkness which followed his passing. In legend, the Halls of Amenti became the Under-world, the Halls of the Gods where the soul passed after death for judgment. During later ages the ego of Thoth passed into the bodies of men in the manner described in the Tablets. As such he incarnated three times, and in his last incarnation he was known as Hermes, the Thrice-born.

The Brotherhood publications has produced a most attractive binding of Dr. Doreal's translation with a cover design of the original Tablets. The demand for this book on the Atlantean Mysteries has been so great that already it is in its tenth edition.

BROTHERHOOD

NEWSLETTER

Dear Students and Friends:

The cold front predicted by the weather bureau for last week arrived here Thursday and it has been foggy with occasional rain until Monday morning when we awakened to find everything covered with snow. It would appear that winter is getting an early start this year.

The bears are busy storing up their winter supply of fat in preparation for hibernation. One of them has become very bold and seems to have no fear of humans. Monday morning of this week I was awakened by a strange noise and my attention was drawn to our living room window which is only about 14 inches from the ground, where a black bear about two years old was walking by. The noise that awakened me was caused by the fur matted with snow and ice rattling on the glass as the bear walked along beside the window. It had investigated one of the bees hives near the house but finding no honey in the top of the hive it decided to continue its search for food elsewhere.

Even though the weather was damp and foggy Saturday there was quite a bit accomplished toward cleaning up the debris.

of the old Temple and painting, etc. in the Administration Building. Everyone enjoyed the pancake breakfast prepared by Glen Evans and Sandra Evans.

We are all looking forward to the spaghetti dinner this Saturday. The Shamballa Fire Flies are all busy with plans and preparations for the dinner. Everyone is invited to bring their friends. These chilly evenings make a home cooked spaghetti dinner seem most appealing.

These social events held here in the Retreat help to serve the purposes for which the Retreat was formed. It is important to spend as much time as possible on learning the Divine laws and how to work in harmony with them but it is also important to enter into material activities in order to maintain a balance. The old saying "All work and no play makes Jack a dull boy" carries a far reaching meaning. In studying Reincarnation the meaning becomes more obvious and we can understand the reason Jesus taught the people to live a life of moderation in all things.

In Cosmic Harmony,

Robert Morrow

MUST BLINDNESS EVER HIDE FROM TRUTH AND LIGHT?

TRUTH is the precept for ways and
means---

If only Truth could be learned in our
teens!

But ideologies wreaking with vice
Are taught instead as the best advice.
And individual lives seem lost
That totalitarianism has bossed,
Coerced, compelled to be something
other

Than they ought--Most don't recover.
Whatever will be, whatever has been,
The Lord did not die to shield man's
sin.

If Jesus did; Christ never died.
Christ is but virtue deified.
The Christ in Jesus did not die,
Yet lives for us would we draw nigh.
Why symbolize Christ, crucified -
Than live to find Christ, glorified!
Why dead-Christ for our inspiration -
Not living-Godlike vindication
Pure in spirit thought and mind?
'Light of His world to heal the blind!

THE POWER THAT WINS

BY

DR. M. DOREAL

(Part two)

I knew one man who had an overwhelming ambition in his life, the thing he wanted to do more than anything else, to memorize Shakespeare from beginning to end. That is no goal for many to set to win, and yet, that man, when he had attained it, felt that he had won a great thing. To other persons, to get a good power of memory so that they can learn what I say would be a great thing. Perhaps it is hard to remember because we strain so much that we defeat our own purpose, because the gaining of a power of memory necessitates the relaxing of the objective mind to such a degree that the subconscious mind can release its memories.

To another person the gaining of some spiritual power, let us say, the power to heal, is something which they greatly desire to win, but too often we only look at it from one angle; that is, the gaining of a great deal of wealth. We know that Jesus said, "Seek ye first the kingdom of heaven and all these things shall be added unto you," and yet if we seek first the kingdom of heaven,

we often find that things are not added to us but that is because we do not seek the kingdom of heaven in the proper manner. Too often we confuse the spiritual kingdom with something entirely different.

If there were a more common terminology, if all the people used the same words to express the same thing, there would be a much clearer understanding of all the principles and laws we work with. When I speak of the power that wins, so far as it applies to myself, I do not think of any terms of money. After all, money is the easiest thing in the world to make. The reason it is hard for so many people is that they do not have the consciousness of money. Many persons are constantly expecting the worst and are disappointed if it does not happen. When they set out to accomplish anything they really do not believe they are going to succeed. The person who succeeds in a material way is one who has eliminated the consciousness of failure from his consciousness. That is, when you need a certain thing in the material world - go out and get it and never think you are not going to get it. The trouble is we try to designate the channel from which that thing is to come. We do not realize that merely wishing for prosperity is of no avail to us. It does not come into manifestation in our life unless we gain the consciousness of possession of it.

Another thing, many people are failures in gaining things in the material life because they are jealous of the possessions of others. So often I have heard this remark, "I do not see why they deserve it." It is not always a matter of deserving. Sometimes it is a matter of consciousness, because after all God does not make any distinction between a pound of gold and a pound of cheese. Remember this: All material values are artificial values. I have heard that they are running short of copper and for certain things, instead of using copper they are going to use gold. So it will serve a useful purpose, but so far as God is concerned there is no difference between copper and gold.

If we change our evaluation, if we recognize no distinction between the way things manifest but only have a consciousness of opulence, we do not say, "John Jones has this thing which I want and I am going to concentrate so I can get it". So often I have had a person come to me and say, "So and so owes me so much money. I want you to concentrate on it so I will get it," but I cannot concentrate on John Jones to give it to them. The channel between John Jones and Mary Smith may be blocked off so it cannot come. After all, I am not worried about John Jones or Mary Smith because all of the prosperity that exists, exists in the Universal Consciousness, and if I concentrate on the manifestation of what I

need and then leave it to the universal consciousness to manifest through the appropriate channel it may come to me. If we get it by the use of force it usually does not do us much good.

A lady came to me one time and wanted me to help her sell a house and she said, "I want to sell it to Mr. So-and-so". I said, "But lady, I cannot do that. After all, you do not care whether you sell the house or not. What you want is a certain sum of money. If you want me to, I will help you to get the consciousness so you can get what you need", so she said, "If you won't do it, I know somebody else that will", and I said, "All right", and she came to me about a month later and said, "Well, I got it". I said, "you know of course that you are going to have to pay a price for what you do?" She said, "No, I got the money; he got the house." I said, "Where is the money?" She said, "here in a certain bank." I said, "When did you put it in?" She said, "Yesterday," and I said, "You know the bank went broke this morning?" She did not have the house nor the money. In her case the law of compensation worked quickly and it would have been just as easy if she had brought into her consciousness the desire and need and then created the consciousness of having.

INTERPRETATION OF THE EMERALD TABLETS BY DR. M. DOREAL

The Emerald Tablets are revealed of their mysteries, which have only been touched upon lightly.

Man's search for understanding of the laws which regulate his life has been unending, yet always just beyond the veil which shields the higher planes from material man's vision the truth has existed, ready to be assimilated by those who enlarge their vision by turning inward, not outward, in their search.

In the silence of the material senses lies the key to the unveiling of wisdom. "He who talks does not know; he who knows does not talk." The highest knowledge is unutterable, for it exists as an entity in planes which transcend all material words or symbols.

All symbols are but keys to doors leading to truths, and many times the door is not opened because the key seems so great that, the things which are beyond it is not visible. If we can understand that all keys, all material symbols are manifestations, are but extensions of a great law and truth, we will begin to develop the vision which will enable us to penetrate beyond the veil.
